THINKSMART HUB 500
SKYPE ROOM SYSTEM

ThinkSmart
THE RIGHT TIME FOR A SIMPLIFIED SOLUTION

Most meeting rooms today suffer from these problems:

• Projector, audio, cameras need separate connections
• Meetings are delayed by an average of 10+ minutes due to ‘tech issues’
• Only 1 person’s PC controls the meeting room
• Content sharing is not reliable and stable
• IT and Facilities teams have to provide and manage multiple devices, cables, ports and power outlets
• Audio levels are too low, and not always clear
• External participants find it hard to connect

• Companies will spend $100B on “Collaboration Technology” in 2020
• 92% of businesses are planning Workplace Transformation Initiatives (WTI) to build Smart Offices
INTRODUCING
THINKSMART HUB 500 SKYPE ROOM SYSTEM

An all-in-one, purpose built device for simplified meetings.

The ThinkSmart Hub 500 enables

• Meetings to start faster with one click
• Reduction in clutter of workspaces
• Control of displays, projectors and cameras by any participant
• Lowered hardware costs with all-in-one audio, video and computing
• Superior audio and video performance with Intel® Core i5
• Better collaboration with Skype for Business on Windows 10 IoT
• Simplified deployment with one worldwide configuration
The ThinkSmart Hub 500 lets you manage a Skype meeting end-to-end with the familiar Skype for Business app, built for Windows 10.
THINKSMART HUB 500
TOP FEATURES

KEY FEATURE
360° ROTATABLE SCREEN

3-COLOR RING LED FOR SKYPE STATUS

DOLBY® PREMIUM AUDIO

AUTO-ON WITH HUMAN PROXIMITY SENSOR

SECURE CABLE MANAGEMENT DOOR
THINKSMART HUB 500 BENEFITS FOR END-USERS

• Fast start of meetings without the usual connection and sharing hassles
• Simple and powerful Skype for Business gives best control of sharing and participation
• Easy dial out from landlines using the built-in PSTN functionality

• Clear speech for remote participants even when you speak from anywhere in the room
• Rich and powerful sound for the whole room with Dolby® Premium tuned speakers
• Superior connection stability for everyone because it’s a purpose built device

Informative. Practical. Productive.
• Informative calendar shows current and upcoming meetings and participant roster
• Practical touches such as Skype status indication through 3-color LED & meeting timer
• Productive features for meetings include spotlighting of participants and presenters

VGA TO HDMI DONGLE
For easy connection of any existing VGA source to the ThinkSmart Hub 500. Especially useful to ensure participants with older PCs can use the Hub's video capabilities.
SOLUTION OVERVIEW

THINKSMART HUB 500 BENEFITS FOR IT MANAGERS

• Reduce clutter with a device that does it all with fewer cables and higher performance
• Consolidate audio, video conferencing, VOIP and PSTN phones into a single unit
• Eliminate the need for separate speakers and phones for meeting rooms

• Transform meeting rooms into intelligent and self-aware assets
• Maximize usage with rich analytics and reporting from Microsoft InTune and Office 365
• Standardize meeting & collaboration equipment with the single, globally available SKU

• Liberate users to connect from any device, anywhere with better connection stability
• Automate power-on with the device’s built in human proximity sensor
• Facilitate the growing trend of increased collaboration and better communications
